

# #Refugees

Currently, there are 65 million refugees in the world due to violence, war, or persecution. The rights of refugees, asylum seekers, and displaced people worldwide matter. All around the world refugees are in chronic situations, in need of help to fight for their rights and stand up to the government. For example, many Rohingya refugees fled Myanmar after the genocide occurred there. Also, in countries in the Middle East, like Syria, war is still occurring and many still have to flee to escape violence; however, many countries are not accepting refugees.
